April 11, 2021

To whom it may concern,

It is my great pleasure to provide this letter of recommendation to Zachary Seebeck for employment with your company. I had the pleasure of being Zachary's computer programming instructor at the Bay-Arenac ISD Career Center from 2018 to 2020. During that time Zachary was at the absolute top of my class and has raised the bar for all future students coming through my program. In both his Junior and Senior years, he placed first in Michigan for Java development at the Business Professionals of America State Leadership Conference. During his Senior year, he placed first in the United States at web application development at the Business Professionals of America National Leadership Conference.

He was such a fantastic student that upon graduation, I hired him to work for my business as a web developer. In addition to working for me in the evening, Zachary has been working at Newtech Dealer Services leading production on CRM software for car dealerships across the nation.

Zachary is a pleasure to work with, both as a student and as an employee. He is a clear communicator, an excellent problem solver, and is able to stay self-motivated and self-directed with little to no supervision. He takes the time to voluntarily mentor younger students and has been able to handle projects directly from my workload when I get behind.

I feel fortunate as an educator to have had the opportunity to have Zachary as a student and to have had him work for me this year. He has my full support in this endeavor. He is a talented, hard-working, and driven young man. I have no doubt that he will find great success in life and sincerely recommend that you decide to bring that success into your business.

Please do not hesitate to contact me if you need more information or have questions.

Sincerely,

Jesse H. Dockett  
Computer Programming Instructor
